DuraSeal®

Premium Wood Floor Finishes

PROFESSIONAL-GRADE QUALITY EVERY STEP OF THE JOB.

STAINS AND SEALERS

Quick Coat™

Two-Hour Penetrating Finish

Premium choice for rich color and performance. Penetrates deeply and is ready for a topcoat in just two hours. Provides unsurpassed beauty and durability in 36 prepackaged colors and 54 intermixed options. Compatible with all DuraSeal water-based and oil-modified finish systems.

Penetrating Wood Finish

Proven blend of oil and resin for exceptional durability and simple maintenance. Beautifies and seals hardwood floors with your choice of many popular wood tones.

DuraClear® Sealer

Fast-drying, tannin-blocking clear with excellent flow and leveling properties. Maximum VOC 125g/L. Lower VOCs with higher solids.

Fast Dry Sanding Sealer

Water-based sealer with exceptional flow and leveling, it seals wood to prevent the finish from penetrating. Compatible with all DuraSeal® water-based finishes.

Quick Dry Sealer

Polyurethane-borne sealer ideal for sealing natural wood floors.

FINISH

DuraClear Max

Premium durability in a nonambering, two-component, water-based finish. Best for heavy-traffic areas. Available in flat (the flattest finish in the industry), satin, semi-gloss and gloss.

DuraClear

Nonambering, one-component, water-based polyurethane offers commercial-strength durability in satin, semi-gloss and gloss with a maximum VOC of 125 g/L.

Water-Based Polyurethane

One-component, water-based polyurethane that applies as easily as DuraSeal Oil-Based Polyurethane. The traditional look and durability of an oil-based polyurethane made easier! Available in matte, satin, semi-gloss and gloss.

Polyurethane

Tough and self-leveling, it offers exceptional durability and stain resistance. Available in matte, satin, semi-gloss and gloss as well as vent and trim finish. Also available in 350 VOC and 450 VOC (1-gallon and 5-gallon cans, satin, semi-gloss and gloss only).

Paste Wax

A special blend of four premium waxes that gives hardwood floors the hand-rubbed luster of fine furniture. A proven classic, it also protects wood and lessens ongoing maintenance. Available in Neutral or Coffee Brown.

MAINTAIN

Trowelable Wood Filler

Water-based, colored filler for filling nail holes and covering minor imperfections in bare, unfinished wood. Available in Red Oak, White Oak, Maple/Ash/Pine, Brazilian Cherry and Walnut.

Wood Patch and Wood Putty

Provides excellent holding power between sandings. Both Wood Patch and Wood Putty are available in Red Oak, White Oak and Maple/Ash/Pine. Wood Putty is also available in all penetrating wood finish colors.

Dura Finish® Liquid Wax

This rich liquid wax blend adds a satin luster to natural and stained wood floors. Available in Neutral and Coffee Brown.

Renovator™ Cleaner and Reconditioner

A balance of solvent and resin that cleans and reconditions hardwood floors finished with DuraSeal Paste Wax or DuraSeal Penetrating Finish.

Wax and Cleaner

Proprietary blend of cleaning agents and wax removes scuff marks and built-up dirt while adding a soft sheen to waxed hardwood floors. Available in Neutral and Coffee Brown.

Hardwood Floor Cleaner

Solvent-free cleaner gently removes dirt and grime without leaving a residue behind. Great for wood floors with a clear nonwax finish. Compatible with all DuraSeal water-based finishes.

Floor Care System

Simple maintenance for hardwood floors with any DuraSeal Polyurethane finish:

- ☐ 1 DuraSeal Hardwood Floor Cleaner (28 oz.)
- ☐ 1 Specially designed rotating mop head
- ☐ 1 Machine-washable microfiber cleaning pad with dust-attracting fringes
- ☐ 1 Heavy-duty telescoping handle

Introducing DuraSeal® Quick Coat warm neutrals.

At DuraSeal, we take pride in being the color leader in the industry and want to ensure that our colors are the best.

Rachel Skafidas shares the thinking behind the newest colors.

light rustic tones

Rustic Beige

Warm Gray

Inspired by nature, both of these are lighter in color but will add warmth to any room. They pair great with warm off whites and nature-inspired colors, like a warm paprika red and a soft magnolia leaf green.

Rachel Skafidas,
color designer for DuraSeal,
a Sherwin Williams company.

For the past 10 years, Rachel has been responsible for researching and implementing the top colors trending in the design industry, from residential to commercial and everything in-between. Here's Rachel's latest take on what's new in the color world.

timeworn grays

Dark Gray

Silvered Gray

The inspiration behind these colors comes from the evolution of the Scandi design movement. Modern minimalism gets a softer feel. While these are both cooler in tone from the first two colors, they have just enough warmth to give a feeling of comfort in the modern spaces you might see. These colors work great with all metals but shades of silver will remain key in working with these wood stains.

deep mid-tones

Aged Barrel

Heritage Brown

These take a fresh approach to more traditional colors. Commonly, you may see these colors with the modern farmhouse movement or paired with more saturated color themes. These two colors provide a feeling of legacy, but have enough gray tones in them to give any room a modern feel.

Trusted by contractors for generations.

This unique formula is designed to color, seal and provide exceptional durability with a surface that can be topcoated in just two hours. GREENGUARD Certified, semi-transparent penetrating finish is now available in six additional forecasted warm neutral colors.

FEATURES & BENEFITS

- Formulated for easy application for professionals
- Excellent coverage for better efficiency
- Two-hour dry time to topcoat for faster return to service
- Can be applied by rag, pad or buffing machine
- 37 packaged colors providing endless intermix and custom-color options
